Part I Internship Information

AN INTRODUCTION TO THE U.S. DEPARTMENT OF STATE INTERNSHIP PROGRAM

Who We Are

The U. S. Department of State is the official international relations arm of the President of the United States. The Department is responsible for formulating, implementing and supporting U.S. foreign policy, assisting U.S. citizens abroad and managing the human and material resources that provide the platform for U.S. foreign policy. Members of the Department's Foreign Service and Civil Service are engaged in issues such as conflict resolution, nuclear nonproliferation, human rights and democracy, environmental issues, world trade, public diplomacy, and the promotion of the interests of Americans and their businesses abroad. Department of State employees are also involved in support and management issues—improving logistical systems to get the best possible value for tax dollars.

As you will see on pages 17 – 40, the Department of State is composed of many different bureaus, some "regional" (for example, the Bureau of African Affairs), others "functional", dealing with specific external issues or internal responsibilities (such as the Bureau for Democracy, Human Rights and Labor; the Bureau of Administration; and the Bureau of Economic and Business Affairs).

The State Department's Mission

To administer U.S. foreign policy and maintain diplomatic relations throughout the world

The Objec- tives of the Internship Program

- ☐ To encourage students to consider careers in foreign affairs
 - ☐ To provide students with valuable work experience in a foreign affairs agency
 - ☐ To aid the Department in achieving its mission
-

THE INTERNSHIP PROGRAM

You are eligible to apply if you are:

- A U.S. citizen
- A student. A student is an individual who has been accepted for enrollment, or who is enrolled, as a degree-seeking student in an accredited college or university.
- A full- or part-time continuing college or university junior, senior, or graduate student. An applicant is considered a junior if he/she will have completed all sophomore credits (60 or more semester hours or 90 quarter hours) by the time the internship begins and will be entering at least the junior year immediately following completion of the internship.
- In good academic standing in an accredited institution

IMPORTANT: You may apply for the Department's internship program if you have not yet completed your registration at a college or university or are awaiting an admissions determination. However, if selected for an internship, you may not serve until you provide proof that you have registered, or have been accepted for enrollment, for studies in the semester or quarter immediately following the internship before you can begin your internship.

In accordance with the Federal Equal Opportunity Recruitment Program, the Department encourages women and minority students to apply for these positions.

Types of Internships

There are two different types of internships: domestic and overseas.

- **Domestic** – About half of the internships are in Washington, D.C. A limited number of intern positions are available at Department offices in other large cities in the United States.
- **Overseas** – The remaining internships are at our embassies and consulates abroad. Not all overseas posts are able to participate in the program, and participation may vary from year to year. For more information, please refer to the descriptions of participating bureaus that begin on page 16.

NOTE: In recognition of the fact that world conditions may change, the Department reserves the right to reassign interns should circumstances warrant.

THE INTERNSHIP PROGRAM, Cont.

Length of Internships

Students must be available to begin their internship within the timetable described on page 13. Interns usually serve for one semester or quarter during the academic year, or for a minimum of 10 consecutive weeks during the summer; they are expected to work a 40-hour week.

Salary and Benefits

- The majority of all internships are **UNPAID**.
 - Pending the availability of funding, a limited number of **PAID** internships are available to students who can demonstrate financial need. These positions are centrally funded by the Bureau of Human Resources. Students selected for these paid positions serve in bureaus throughout the Department of State and overseas. The decision to award funding is based solely on financial need and is not influenced by the bureau(s) to which a student may apply, regardless of what is stated on pages 17-40.
 - All students who wish to be considered for a paid internship must include in their internship application package their current Student Aid Report (SAR), which indicates their EFC (Expected Family Contribution) number. (This report is generated from the submission of the Free Application for Federal Student Aid form.) **Student Aid Reports submitted without the EFC number will not be considered.**
 - Students are paid for a maximum of 10 consecutive 40-hour weeks, starting the first day of their internship, at the GS-4, 5, or 7 level, based on their level of education at the time they apply. Centrally funded interns are not eligible for overtime.
 - If the appointment is for 90 days or more, the intern earns annual and sick leave at the rate of four hours per bi-weekly pay period plus paid Federal holidays during the period worked. Paid interns contribute to Social Security.
 - Unless otherwise stipulated in the bureau descriptions, which begin on page 16, transportation to and from Washington or overseas posts is the responsibility of the intern.
 - Although unpaid interns are not Federal government employees, and are not entitled to any employee benefits, they are protected in the event of job-related injuries under the Federal Torts Claims Act.
 - Many educational institutions grant academic credit for internships and/or offer financial aid for internships.
-

THE INTERNSHIP PROGRAM, Cont.

Medical Insurance for Overseas Internships

IMPORTANT: Applicants who wish to intern abroad must present evidence of medical insurance coverage that is valid abroad, to include medical evacuation and repatriation of remains coverage. Interns may not travel to post without completing and submitting a copy of the Verification of Medical Coverage form to the Department's Intern Coordinators' office.

Housing

Housing is not provided for domestic internships. Arrangements and associated costs are the responsibility of the interns. A listing of suggested housing alternatives in Washington, D.C. is provided to students selected as interns and alternates.

Abroad, every effort is made to provide housing at no cost to interns, but, because circumstances may vary at different posts, this cannot be guaranteed. The bureau descriptions, which begin on page 17, include available guidance on bureau housing policies. Before accepting an overseas internship, students may wish to confirm with the selecting bureau whether housing will be provided.

Metrochek Transit Benefit Program

The Federal government provides transportation benefits to qualified Federal employees to encourage the use of mass transportation domestically to conserve energy, improve air quality and reduce traffic congestion on U.S. roads and highways. All paid and unpaid interns assigned to Washington, D.C. and using public transportation are eligible for the Metrochek Transit Benefit program that helps to defray the cost of traveling to and from work. The benefit is based on actual commuting costs and, as of July 2005, cannot exceed \$105 per month.

THE SELECTION / CLEARANCE PROCESS

How Interns are Selected

All applications are submitted online through the "**Gateway to State**" system, which also screens them to make sure that they are complete and that applicants meet the eligibility criteria. Once that process is completed, the bureau will have access to those applications submitted to them. Bureau representatives evaluate applicants based on the application materials. For many internships, foreign language ability is an important factor in placement for internships abroad. Completing some academic studies relevant to the type of work you wish to perform increases your competitiveness.

The bureau(s) or office(s) to which you have applied may make a verbal offer to you. However, the offer is not "official" until selectees receive written notification from the Student Programs office. This notification is a tentative offer to participate in the internship program. A final offer is contingent upon complete investigation and issuance of a security clearance. Those who are not selected for internships will also be notified. So that we may contact you as soon as possible, **please make sure that any changes of address are updated immediately in your applicant profile.**

Security Clearance Process

Students tentatively selected for the internship program must undergo a background investigation and receive either a Secret or Top Secret security clearance. The clearance process takes approximately 90-120 days to complete from the time the forms are received by the Bureau of Diplomatic Security (DS). Investigations may take substantially longer than 120 days if you have had extensive travel, education, residence and/or employment overseas, or if you have dual citizenship, foreign contacts, immediate family or relatives who are not citizens of the United States and/or a foreign born spouse or if there is a security, suitability, or medical issue to resolve. These issues could include a current or past history of drugs or alcohol abuse, as well as a recent history of credit problems. Further information regarding issues of dual citizenship and foreign influence is available at **careers.state.gov**. Although these problems will not necessarily preclude you from receiving a security clearance, they will lengthen the time required to complete the clearance process. Your preliminary notification of acceptance will include instructions on how to initiate your security clearance electronically. When you receive this letter, **please complete the online clearance process by the date indicated in the letter. This is important! DS may be unable to process your security clearance if you fail to meet that deadline.**

THE SELECTION / CLEARANCE PROCESS, Cont.

Random Drug Testing

All interns serving in positions that require a clearance for access to information classified as "Secret" or above, will be subject to the Department's random employee drug testing program.

Final Offer of Appointment

After all procedures are completed and clearances obtained, interns assigned domestically will be contacted by the Student Programs office with an official, final offer of appointment. The Bureau Coordinator normally contacts interns assigned abroad. **Travel to Washington, D.C. or abroad for purposes of reporting for duty should not be done until you receive an official offer of appointment from either the Student Programs office (for domestic assignments) or the Bureau Coordinator (for overseas assignments) confirming the granting of your security clearance and permission to report for duty. The office or post to which you are assigned will be unable to employ you until you have been fully cleared.**

Note: Federal law requires denial of a passport to any spouse certified by the Department of Health and Human Services as being more than \$5,000 in arrears on child support.

WHAT TO EXPECT AS A STATE DEPARTMENT INTERN

Duties of an Intern

Internships are excellent preparation for future careers in both the Civil Service and the Foreign Service. The Department is looking for students with a broad range of majors, such as Business or Public Administration, Social Work, Economics, Information Management, Journalism, and the Biological, Physical and Engineering Sciences, as well as those majors more traditionally identified with international affairs.

Intern duties and responsibilities may vary according to post or office of assignment. For instance, interns may write reports on human rights issues, assist with trade negotiations, assist with citizen's services or visa work, help Americans in distress abroad, or organize conferences or visits of high-level officials. Others may research economic or environmental issues, write news stories, work on web pages or help produce electronic journals.

Interns with scientific and technical backgrounds might work with issues such as arms control, genetically modified organisms (GMOs), infectious diseases, and remote sensing.

Those interested in management may use their expertise working on projects involving budgets, human resources, information systems, or general logistical support to posts abroad. Some may be involved in educational and cultural exchange activities. Interns are also instrumental in the recruiting of U.S. speakers and specialists for overseas programs.

Intern Activities

Your summer experience at the Department of State not only includes the exceptional knowledge and work experiences that you will gain in your office setting, but it also offers the opportunity to explore the Washington Metropolitan Area. During each intern session, a Student Activities Coordinator is assigned to the Student Programs staff to plan activities that will enhance your internship. These activities include brown bag lunches with senior Department officials, tours, and social activities. The tours allow students to get better insight into the daily functioning of other government organizations. Examples of past tours include the Bureau of Engraving and Printing, the Pentagon, and the Capitol, as well as tours of various embassies. Guest speakers include some of the top managers in the Department, who share their career experiences and give students a better understanding of the Department's objectives.

WHAT TO EXPECT AS A STATE DEPARTMENT INTERN, Cont.

Intern Activities, Cont.

The social activities (during work and after-hours) allow networking and socializing with other student employees.

Interns assigned overseas and in field offices can expect to get involved with embassy functions or events appropriate to the area in which they are assigned.

Appropriate Attire

The Department of State does not have an official dress code; however, as the leading U.S. foreign affairs agency, the Department of State is in the front line of customer service to the public at home and abroad. This mission requires that our employees project competence and professionalism. Therefore, the appearance of employees should also be professional in a way that conveys respect for colleagues, customers, and the work environment and should not pose a safety or health hazard or distraction from work.

The Department welcomes the cultural diversity of its workforce, and seeks to maintain freedom for personal expression without sacrificing the professional image essential to the performance of its mission.

APPLICATION INSTRUCTIONS

Apply Online

Applications for the U.S. Department of State's intern program **must** be submitted online, using the **"Gateway to State"** system.

To access **"Gateway to State"**, visit our website at careers.state.gov and click on Student Programs. Then click the **"Gateway to State"** button. If you are a new user, follow the instructions to create a new user account. Please remember to write down and save your user ID and password.

Now you are ready to begin your internship application.

Your Application Package

There are three parts to the application process:

- Applicant Profile
- Application, including Statement of Interest
- Transcripts and optional Student Aid Report (SAR)

In the first part of the application process, you will create your applicant profile by providing biographic and prior Federal government employment information. This section will determine if you meet application eligibility requirements. You must answer all "required" fields in order to proceed through the application process.

The second part of the online application process is specific to the internship program. In this section, you will:

- Identify up to two bureaus for which you wish to be considered for an internship assignment
 - Answer questions regarding your personal, academic and employment credentials to be used by bureau representatives in making their selections
-

APPLICATION INSTRUCTIONS, Cont.

Your Application Package, Cont.

- Submit a one-page **Statement of Interest** that describes your objectives and motivation in seeking an internship. As bureau representatives use this statement in making their selections, you should use the statement to explain how your academic courses and other personal experiences relate to the bureau(s) or office(s) to which you are applying. Please use this opportunity to tell us about any specific disadvantages you may have overcome. You may also use this section to expand upon any of your answers to questions asked in the application, such as language ability or other special skills.

The third part of the application process is the submission of your **transcript** and, if you're applying for a paid internship, your current **Student Aid Report (SAR)**. Your application is not considered complete until these documents have been received using the following procedures:

- Once you have completed the online questionnaire and Statement of Interest, you will be prompted to print out cover sheets that will be used to fax your transcripts and your current SAR. You will only be allowed to print your cover sheets after successfully submitting your online application. **It is extremely important that only these cover sheets be used for faxing these documents.** The cover sheets are coded to insure that your documents will be included in your online record. Please ensure that each document is faxed separately with the appropriate cover sheet.
 - Transcripts: Both official and unofficial transcripts are acceptable for unpaid internships. Paid internships require official transcripts. If you are a first year graduate student, you must submit a copy of your most recent undergraduate transcript.
 - OPTIONAL – Student Aid Report (SAR). If you wish to be considered for a paid internship, you must use the above procedures to fax a copy of your Student Aid Report (SAR). The SAR must include your Expected Family Contribution number (EFC). You will not be considered for a paid internship if you do not submit a SAR or if the EFC number is not indicated on your SAR.
 - If a document is faxed successfully, you will receive a system-generated e-mail confirming receipt. We strongly recommend that you retain a copy of this e-mail in case verification of your submission is required.
-

APPLICATION INSTRUCTIONS, Cont.

Submitting Your Application

When you have completed the online questionnaire and the Statement of Interest and have printed out the fax cover sheets, you will be ready to complete your application. You should remain in the program until you have received an **application confirmation screen**. Print this screen for verification of your application. If you do not receive the confirmation screen, you must assume your application was not complete. Follow the instructions, which will indicate which section(s) of the application you must still complete. **Please remember that your application is not considered complete until you have transmitted your transcript and, as appropriate, your SAR.**

Accessing Your Application

You may stop working on your application at any time and return later to resume its completion or to update any biographical, student, or employment data. To do this you should:

1. Retain your User ID and Password for future use
 2. Save your application
 3. Return to the Student Program web page, click on the **"Gateway to State"** button, enter your user ID in the login field, and enter your password to access your individual application and data
-

Gateway to State

Application Checklist

Check off each item to make sure everything has been done.

Reminder ! ! !

- o Did you receive and print out an application confirmation screen after submitting your application?
- o Did you use the appropriate system-generated cover sheet to fax your transcript?
- o Did you use the appropriate system-generated cover sheet to fax your Student Aid Report (SAR) showing your Expected Family Contribution (EFC) number? (Optional)
- o Did you receive verification that faxed items were successfully transmitted?

To verify your fax transmission, you can do the following:

1. At the Gateway to State login page, enter your username and password.
2. Select the "Generate Fax Cover Sheet" option and click "Next".
3. If we have received your fax, the status of your fax will say "Received."

- o Did you keep copies of everything for your records?

Fellowship Opportunities

The Council Of American Ambassadors Fellowship Program

The Council of American Ambassadors Fellowships provides \$5,000 individual awards to four undergraduate students to participate in a program that combines mentoring by former U.S. Ambassadors, practical training through internships at the Department of State and, in conjunction with The Fund for American Studies, academic studies in international affairs at Georgetown University, and residential housing on campus. These Fellowships, which are open to undergraduate students who will be entering their senior year in the semester following their internships, are available during summer sessions only.

Applications of persons chosen by the Department of State for internships in Washington, D.C. and who have authorized the Department to provide their information to other organizations will be forwarded to the Council and The Fund for consideration. Eligible candidates will be contacted by The Council of American Ambassadors with instructions to apply for the Fellowship. For more information about this program, please visit www.dcinternships.org/icpes. Email inquiries should be sent to council@americanambassadors.org or smithchell@tfas.org.

The Pamela Harriman Foreign Service Fellowship Program

The Pamela Harriman Foreign Service Fellowships, sponsored by the College of William and Mary, will provide a \$5,000 award for two U.S. college students to work in the U.S. embassies in Paris and London and one U.S. college student to work in a component of the Office of the Secretary. The fellowships are available during summer sessions only. Applications of persons chosen by the Department of State for internships in London or Paris or in a component of the Office of the Secretary and who have authorized the Department to provide their information to other organizations, will be forwarded to The Pamela Harriman Foreign Service Fellowship Program for consideration. Eligible candidates will be contacted with instructions on applying for a Harriman Fellowship. The Harriman Board has determined that only undergraduate students entering their junior or senior year and graduating seniors continuing their studies will be considered for a Fellowship. E-mail inquiries on the Fellowship Program should be addressed to: harriman@wm.edu. All written inquiries should be addressed to:

**The Pamela Harriman Foreign Service Fellowship Program
PO Box 8795
The College of William and Mary
Williamsburg, VA 23187**

The chart on pages 15 and 16 is to be interpreted as a guideline only. It is intended to help applicants in identifying bureaus to which their majors may be commonly related. Bureaus require a broad range of skills and academic backgrounds to accomplish their goals, and do not limit their selections to only those majors indicated on the chart.

Part II Bureau Information

PARTICIPATING BUREAUS/OFFICES

The following is a brief overview of each participating bureau or office that offers internships at various times during the year. You may apply for an internship in **two (2) bureaus or offices**. If you wish to be considered for an overseas internship, at least one of your bureau choices must be one of the following: AF, EAP, EUR, IO, NEA, SA, or WHA. You will also have the opportunity to indicate the specific country in which you would like to intern. Please note that some bureaus offer internships in domestic locations other than Washington, D.C. If you are interested in working at one of these locations, you will have the opportunity to express your preference.

Bureau of Administration (A)

Diplomatic Reception Rooms (M/FA)

The Diplomatic Reception Rooms and State Rooms are 18th-century style rooms located in the Main State Department building. They are used for official functions hosted by the Secretary of State and other high-level government officials. The Office of Fine Arts (M/FA) manages the collection of 5000 museum-caliber objects of American furniture, paintings, and decorative arts of the period 1750 to 1825. An intern in the office can expect to assist with various aspects of registrarial and collections management, including maintaining computer databases, constructing photography files, and inter-relational records in object, conservation, publicity and research files. Graduate students in decorative arts or museum studies would gain registrarial experience.

Additional opportunities are available for graduate interns in American fine and decorative arts history, museum studies and library science/special collections/archives to assist with collections registration, management and conservation activities.

Unpaid internships are available for graduate students in Washington, D.C. throughout the year.

Art Bank Program (A/AB)

- Acquires and manages a permanent collection of more than 2,000 limited edition prints and original works on paper by contemporary American artists
- Exhibits artwork in offices of Department officials, reception areas, and conference rooms in the Department of State and the Agency for International Development in Washington, D.C.

Unpaid internships are available in Washington, D.C. throughout the year.

Center for Administrative Innovation (A/CAI)

Supports management professionals, both overseas and domestic, who maintain and improve the critical administrative platform upon which U.S. government agencies operate abroad. Helps management professionals improve their operations by providing better tools and techniques, including best practices from the private sector. Targets good ideas and trends; researches and test-pilots them for possible worldwide application at U.S. government missions overseas. Analyzes and evaluates administrative business processes for overseas and domestic operations from the customer's perspective. It is also a great group of people and a fun place to work.

Paid internships are available during the summer in Washington, D.C. Unpaid internships are available throughout the year in Washington, D.C.

Office of the Procurement Executive (A/OPE)

The Office of the Procurement Executive formulates, establishes and reviews policy governing federal contracting and procurement, federal assistance and competitive sourcing activities for domestic and overseas missions. Interns working in A/OPE can expect to work on numerous cross cutting issues, such as researching legislation or federal regulations and drafting policy. They may have direct contact with overseas missions and domestic bureaus in support of the A/OPE mission. Students interested in program and project management, drafting substantive communications, and Department of State activities would find an internship in A/OPE beneficial and rewarding.

Office of Operations (A/OPR)

Manages, directs, and establishes policies for diverse administrative programs including domestic real property and facility management, centralized acquisition, worldwide supply and transportation, assistance to overseas schools, language services, and the administration of foreign allowances. A/OPR offices that typically participate in the intern program are:

- **A/OPR/ALS** - Develops and coordinates policies and regulations, standards and procedures for the administration of the government-wide allowances, post differentials and representational expenses for government employees assigned to foreign countries; sets rates for overseas per diem and other allowances.
- **A/OPR/LS** - The Office of Language Services provides interpreting, translating, and other language services needed to conduct foreign relations with the non-English-speaking nations and peoples of the world. LS responds to the language needs of both the Department of State and the White House. Paid summer translating internships are available for graduate students with good writing skills and mastery of English and at least one of the following languages: Arabic, Russian (and languages of the former USSR), Spanish, or French. Interns spend 10 weeks working under the tutelage of State Department translators. To be selected, applicants must be U.S. citizens and pass a translating test given at the Office of Language Services in Washington, D.C.
- **A/OPR/FMSS** - Responsible for the management and administration of domestic building operations and maintenance. FMSS is also responsible for all domestic energy, environmental, fire and life safety programs.

Paid and unpaid internships are available in Washington, D.C. throughout the year.

Bureau of Resource Management (RM)

Headed by the Department's Chief Financial Officer, RM carries out a variety of resource management functions for the Department of State:

- **Resource Planning (RM/SPP):** The office of Strategic and Performance Planning (SPP) brings dedicated focus to the Department's strategic, program, and performance planning activities. RM/SPP is responsible for the Department's Mission Performance Plan (MPP) process, the Bureau Performance Plan (BPP) process, the annual Performance Plan, the coordination of all activities associated with the development of the Department of State Strategic Plan, and participates in the preparation of the combined Performance and Accountability Report. RM/SPP coordinates the annual Senior Reviews chaired by the Deputy Secretary, leads the inter-agency effort to update the International Affairs Strategic Plan (IASP), and ensures Department-wide compliance with the Government Performance and Results Act (GPRA). RM/SPP is also working to implement the President's Management Agenda initiative on Budget and Performance Integration.
- **Resource Programming and Budgeting (RM/BP & RM/FA):** These offices are the two Department Budget shops. One focuses on State Programs and Operations the other focuses on all Foreign Assistance Programs. These shops are the first stop for any Department funding. They review the requirements, develop the budget, presenting appropriations requests and financial plans to OMB, the President, and the Congress and then ensuring available resources are optimally allocated to achieve Department-wide strategic goals. They manage a network of Department budget and financial management processes and activities involving Department principals, other Department resource management offices, all Department bureaus, and other government agencies to operate a worldwide program for budget formulation, presentation and execution.
- **Resource Systems, Accountability and Policy (RM/DCFO):** This Office does the primary technical and policy advising to the Assistant Secretary and Chief Financial Officer on matters relating to financial management and provides guidance and coordination to the Department's financial management program. The DCFO manages the Financial Policy, Reporting and Analysis Directorate, the Global Financial Management Systems Directorate, and the Global Financial Systems Support Directorate. The DCFO advises the Chief Financial Officer, and provides technical guidance on matters relating to financial management systems for the Department's worldwide activities, including, strategic planning for financial management, policy, procedures, and management controls.
- **Resource Execution (RM/GFS):** Global Financial Services is located in Charleston, South Carolina at the Charleston Financial Services Complex. The Managing Directors for the Charleston Financial Service Center, the Paris Financial Service Center, the Bangkok Financial Service Center, the Domestic Financial Services Directorate, and the Customer Support, Training & Global Disbursing Operations Directorate all report to GFS. With approximately 600 government and contract employees, GFS provides financial services not only to the Department of State's domestic and worldwide offices, but also a myriad of other federal agencies with overseas presence.

Office of the Secretary of State (S)

Office of the Coordinator for Reconstruction and Stabilization (S/CRS)

This new office oversees and coordinates civilian response activities of the U.S. government in key states making the transition out of civil strife.

- The office prepares, plans, and supports U.S. government stabilization and reconstruction activities in a range of situations that require the capabilities of multiple U.S. government agencies, including: complex emergencies, failing states, failed states, post-conflict environments, and/or situations involving peacekeeping or other international interventions.
- The office provides the Secretary of State and other U.S. government decision-makers with clear options; is developing an Operational Readiness Corps and Reserve for "surge" capacity; and serves as an internal expert consulting group, which either can support regional bureaus in coordinating, or can itself directly coordinate, the U.S. government response as the situation warrants.
- The office seeks to monitor "hot spots," plans responses, conducts exercises, and pre-identifies people and funds for rapid response.
- The office aims to become a catalyst for applying lessons learned in sectors like governance, civil society, rule of law, democratization, transitional security, public safety, humanitarian relief, refugee resettlement, infrastructure reconstruction, education, community outreach, banking, debt, trade, privatization, economic stabilization, and multilateral diplomacy regarding failing and failed states.
- The office works with key private sector groups like Non-Governmental Organizations, Private Voluntary Organizations, contractors, think tanks and universities in order to develop expertise and build institutional response capacity.

Paid and unpaid internships are available in Washington, D.C. throughout the year.

The Office of the Global AIDS Coordinator (S/GAC)

- Implements the President's five-year \$15 billion Emergency Plan for AIDS Relief - largest commitment ever by a single nation toward an international health initiative
- The Office of the Coordinator oversees and directs all resources and international activities of the U.S. government to combat the global HIV/AIDS pandemic, including U.S. contributions to the Global Fund to Fight AIDS, tuberculosis, and malaria.
- In the focus countries of the Emergency Plan, life-saving medical treatment will be provided to two million people living with HIV/AIDS, seven million new HIV infections will be prevented, and care will be provided to ten million people infected and affected by HIV/AIDS, including orphans and vulnerable children.
- Additional information about the Office of the U.S. Global AIDS Coordinator may be found at www.state.gov/s/gac.

Paid and unpaid internships are available in Washington, D.C. throughout the year.

Office of the Coordinator for Counterterrorism (S/CT)

- Coordinates the USG's international counterterrorism policy to build the political will of foreign partners to combat terrorism and to assist our partners to develop the practical capacities - in law enforcement, border control, and banking regulation, among others - to identify, interdict and defeat terrorists. We accomplish this by: engaging with foreign governments and publics to reinforce policy goals; providing practical assistance to build law enforcement capacity (the Anti-Terrorism Assistance program), counterterrorism finance skills (Counterterrorism Finance Program), border control (the Terrorist Interdiction Program); and, building and sustaining USG counterterrorism capabilities through the Foreign Emergency Support Team (FEST) and Technical Support Working Group (TSWG).
- Established a new Homeland Security Unit to coordinate cross-cutting policy issues within State regarding homeland security; it will also facilitate State's coordination with the Department of Homeland Security (DHS). This will strengthen our links with the DHS and reinforce State's coordinating lead on international counterterrorism policy.
- Engages in bilateral, multilateral, and public diplomacy to deter terrorism through a firm policy of no concessions to terrorists, prosecution or extradition of international terrorists, and vigorous opposition to state-sponsored terrorism.
- Identifies and develops justification for the U.S. government's biennial designation of foreign terrorist organizations.
- Coordinates U.S. counterterrorism research and development including consultations and cooperation with selected countries.
- Leads interagency Foreign Emergency Support Team that stands ready to deploy overseas on four hours notice in the event of an international terrorist incident.

Paid and unpaid internships are available in Washington, D.C. throughout the year.

Office of Civil Rights (S/OCR)

- Manages all Department of State programs and activities which promote equal employment opportunity (EEO) and affirmative action for employees and applicants for employment
- Directs a complaints processing program which addresses complaints of discrimination based on race, color, national origin, sex, religion, age, sexual orientation, disabling condition, or prior statutory, constitutionally protected activity
- Advises the Secretary of State and senior Departmental managers on affirmative action and diversity issues and develops and implements policies and procedures to eliminate barriers to equal employment opportunity
- Conducts briefings and training sessions on EEO, diversity management, and diversity for departmental components worldwide

Unpaid internships are available in Washington, D.C. throughout the year to undergraduate, graduate, and law students with an interest in public service, equal employment opportunity and civil rights issues.

Foreign Service Grievance Board (S/FSG)

- Congress established the Foreign Service Grievance Board as an independent adjudicatory body to ensure procedural protections for Foreign Service employees of the six Foreign Affairs agencies. The Board must resolve the tensions that sometimes develop between the need to protect employee rights and the desire to enhance Foreign Service efficiency. The major function of the Board is to provide a forum for the fair review and adjudication of grievance appeals. The Board's jurisdiction extends to any grievance, as defined in Section 1101 of the Foreign Service Act, and to any separation for cause proceeding initiated pursuant to Section 610(a)(2). The jurisdiction of the Foreign Service Grievance Board is limited to current and former members of the Foreign Service who are U.S. citizens. The Board also has jurisdiction over labor-management implementation disputes and certain retirement annuity pension claims. Its decisions generally are binding on the grievant and the agency alike subject only to judicial review.
- The Board has an intern position available throughout the year. Those interested in a broad view of the practical problems of the Foreign Service, personnel management and/or computer database management are encouraged to apply. Interested persons are welcome to visit the Board's website at www.fsrgb.gov.

Office of the Science and Technology Adviser to the Secretary (STAS)

Appointed in September 2000, the Adviser and STAS lead an initiative to:

- Strengthening the S&T literacy and capacity of the Department as a whole - both by increasing the number of scientists in the Department and by increasing training and exposure of diplomatic and civil service personnel to S&T issues
- Building a partnership with the outside S&T community - academia, technical agencies, associations, industry - particularly in the U.S., but also abroad
- Providing advice to the Secretary and other senior Department officials, and catalyzing initiatives for greater State leadership in international S&T cooperation and related policy developments for new and emerging S&T issues

STAS can accommodate up to two interns during any internship period, but also will assist in identifying regional and functional bureaus, as well as embassies abroad, that may require S&T interns. The positions may or may not be paid, depending on bureau policy. Accordingly, applicants should also indicate their field(s) of concentration as well as any preferences for overseas locations. See the STAS website:
